

FOSTER CARE ASSOCIATION OF VICTORIA POSITION:

As a foster carer, you will be required to enter into a number of agreements to ensure the best interests of children in your care. These will set out legal obligations, responsibilities and best practice frameworks. The key to a successful placement however lies in the quality of the relationship between the carer and the agency case worker.

This document has been developed as a tool to clarify expectations and encourage open communication when establishing the foundations for a positive working relationship. It should be considered by the carer in advance to enable reflection on past experiences. This might include what's been useful with previous workers, what hasn't worked so well, what you would like done differently, etc. Further, it is essential that this document is reviewed regularly and within agreed timelines.

Guidelines have also been established by your CSO and in the Child Protection Manual prepared by the Department, setting out expectations in relation to communication and information sharing.
